Broadbottom CE (VC) Primary School

It was "brilliant" and "great"

Awesome! …….. absolutely loved it. Thank you so much.

Comments from parents after experiencing Google Classrooms during the January 2021 lockdown.

Honestly, not sure how you're coping with this! But well done, you're braver than any of us parents!

Just wanted to pass on a well done to you for today. ……. was really happy and thought you were excellent, especially under the circumstances.

I just wanted to say that it was really nice to see some strong messaging and leadership from BB school today. I thought you sent direct, appropriate and clear messages at just the right time.

Well done to the whole team. Stay strong, take care and sending very best wishes to everyone.

Thank you so much, …. really enjoyed it! So much more manageable at home with a structured day with their teacher.

Thank you for all your hard work and keeping the children engaged.

Thanks. Your lesson delivery is great. It must be really tough on teachers, all this stop, starting and expectations

Well done! This is great! You have the patience of a saint. Keep up the good work.

You are doing great!

From a personal/parent point of view, I wanted to extend a huge thanks and well done to you all and all the staff.

Stirling effort there. Cold beer and medal deserved.

To be honest, I was panicking about it, thinking it would be a nightmare, but it was really well set out, so well done!

Thank you for today. It couldn't have been easy trialling the new system, but I thought you did a brilliant job. ……. was engaged all day on the laptop and it is such an improvement to the first lockdown. Just another 6 weeks to go!

Very well done! Hope you're treating yourself to something nice this evening. You certainly deserve it!

I just wanted to say a huge thank you for how well you have handled today, considering what a huge learning curve it has been and also what a large class you have. You have provided a full day of education for our children, and I personally think you are a superstar!
