

## Broadbottom CE (VC) Primary School

## Aims

### At Broadbottom we aim to :

- foster the enjoyment of music through the experience of a wide range of musical styles and activities.
  - encourage pupils to develop their singing ability
  - explore the sounds made by a wide range of tuned and un-tuned instruments
- learn about the elements of music, for example, pitch, duration, texture and dynamics.

Music provides pupils with the opportunity to use technology appropriately, to enhance and communicate their own compositions and performances.

A young boy with dark, curly hair is shown from the side, focused on playing an acoustic guitar. He is wearing a light-colored, long-sleeved shirt. In the background, another student is partially visible, also playing a guitar. The scene is set in a music classroom with warm, orange-toned walls. The text is overlaid in the top right corner.

Having the opportunity to play musical instruments helps pupils to develop self-discipline and improve memory.

Music helps pupils to appreciate and understand a wide range of traditions and cultures.

Music provides pupils with a range of vocabulary to describe the features of different musical styles and genres and articulate their responses to these.

Music allows pupils to express their feelings and ideas through composition and performance.
